Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

This sounds like a huge expense with a very small percentage of homeowners benefitting. I recommend scrapping the whole deal. I am in new home construction and while underground looks nice that's about all you will get for your dollars. The desired effect will be minimal and not even close to justifying the expenditure.

Sincerely,

Ms. Gretchen Scott
