Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

This sounds like a perfect government designed program...
No input from the consumers who have to pay for it and getting nothing in return.

No accountability for the money to be spent just here you have billions to spend - just go do it - what ever that is????
Does not consider better technology available to address it and may cost less - just a plan to waste billions and pack the pockets of Duke Energy and others ... and best of all this goes on for decades - and the "stupid" consumers will not know the difference - yeah for government!! When they do catch on we simply rename the program and carry on wasting money and making the consumers pay.

Sincerely,
Gerald Burns
