Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

As a Florida resident who went without electricity for 17 days post Hurricane Wilma, I implore you to NOT ALLOW THIS PLAN TO GIVE THE RICH POWER FIRST!!!

Our culdesac (8 homes) was on a separate link and we were left abandoned while the rest of our neighborhood had power! And many had electricity guilt similar to survivor guilt.

We were a low priority due to only being 8 and whole neighborhoods were out in other areas. IMAGINE if we then had to wait for the rich to get their electricity also.

This is a HOAX!!

Sincerely,

Ms. Arcturus Fatjo
