Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

How do you expect people living on Social Security to handle these massive rate increases? You should try LIVING ON \$1,000 or less A MONTH. If you committed to putting ALL electrical lines underground I might be okay with your increases. This is something that should have been done decades ago.

Sincerely,

Ms. Valerie Baldino
