Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I am retired, on a fixed income and moved to Florida because of its low cost of living.

I am entirely opposed to these utility rate hikes because they are very costly and provide little consumer benefit. It's just another way to pad utility company profits with no way to hold them accountable to make sure they deliver true consumer benefits!

Sincerely,
David Hoo

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

As you know a good percentage of Florida residents are retired on a fixed income and large electric bills will be especially hard on that portion of our populations. Please consider any modern options for reducing grid dependence, such as: solar, batteries, or a more decentralized electricity system.

Thank you,

Wallace B Sherman
