Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I get regular communication from FPL on mundane activities and plans to improve service to customers. On a cost significant project like this one all of a sudden they go quiet and we have to be alerted by 3rd parties of the poor cost benefit of a doubtful project. I urge Florida utilities companies to put a stop to this project at the expense of their consumer base. On a different line of thought, as a Nextera shareholder I have just had to undergo a significant share price drop due to questionable financial deals supposed to fund a fund a treasure chest for future Nextera improvement projects. I feel like being done from both ends. On the other hand when I write to the CEO of FPL I don't even get the

courtesy of a response. To say that I am very disappointed by Nextera / FPL practices lately is more than an understatement.

Sincerely
