Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

As a newly retired resident, I am learning to budget my very limited income. There are all the required utilities and living expenses that continually increase no matter how efficiently I budget, and no matter how little I spend beyond the actual have to's. This restoration service sounds like a luxury item that just does not need to be in my expenses. Please think twice about how necessary this really is and do not allow the utility companies to add yet another fee to our bills.
