Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Being part of an international community and a Realtor to many international people, I am aghast that we are not better with our resources. Europeans ask me constantly, why are your power lines above ground, why aren't we using the plentiful sun's energy, etc.

I do not believe that the band aide approach which seems to benefit a few is right for our future.

I urge fresh perspectives without consideration to shareholder returns.

I, by the way, am a shareholder of one of your chosen utilities.

Greed will destroy us. Yes there should be rewards for efforts but NOT excessive rewards at the expense of many less fortunate.

Sincerely,  
Cynthia Corogin
