Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

docket number 20200092-E1

Florida Power & Light

I am a 68 year old retiree and cannot afford to pay for services that benefits no more than 5% of ratepayers.

I believe this is unfair and violates the public trust we as citizens place in the members of the Public Service Commission.

I am tired of these third world political tactics of enriching monopolies' bad corporate citizenry. We deserve lower electric rates NOW!

Sincerely,  
Teresa Rabreau
