Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

We are watching and we know this proposal (SPP) is more about profit than storm protection. I am retiree on a fixed income, these increases go directly to my bottom line, and directly effect my financial well being. I wish Duke would focus on new and modern ways to reduce grid dependence with renewable technologies, especially solar and batteries. We are not called the sunshine state for nothing!!!

Sincerely,

Mr. Patrick Brennan
