Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

As retirees in Palm City FL, we cannot see any medium or long term benefit to justify these rate increases for FPL, our supplier, let alone any accountability to customers. We support our utility and voted for rate increases in the past in order to fund hurricane protection measures.

We are vehemently against this dramatic rate hike.

Please heed our concerns and those of a great number of FPL and other utility customers living on fixed incomes.

Sincerely

Jonathan and Gail Squires

Sincerely,
