**Subject:** RE: Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Good Afternoon, Ms. Clark.

We will be placing your comments below in consumer correspondence in Docket No. 20200092, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Florida PSC PSC PSC  
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Re: Docket Number 20200092-E1  
Duke Energy Storm Protection Plan

Gentlemen,

I have resided in Florida since 1979 and am now retired and living on a fixed income. The storm protection plans submitted to the commission for consideration are a waste of resources that will only line the pockets of the utility companies and provide little or nothing in return for the Florida residents who have to pay for them.

There is no plan to further sources of green energy to reduce dependence on the current grid system and worst of all, the plans do not comply with the Commission's own rules!

I do not believe that the Commission is serving the needs of the residents by allowing this sham of a policy to be passed without question and urge you to reconsider and do your job to protect the citizens of Florida from this effort by the utilities to fleece the public!

Thank you for your consideration in this matter and I hope you vote your conscience and reject this plan.

Sincerely,

Michelle Clark
