Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

The idea that all customers will subsidize a tiny few is downright un-American. I've had almost no income since the beginning of the pandemic, and have had to request public assistance to pay my utilities bill for the first time in my 55 years on this planet.

TECO and other utilities should not be making a killing on this SPP boondoggle. Please do not rubber-stamp these plans, which are bad for all of us.

Sincerely,
Mike Sahnó
