Re

Docket#20200219-EI

it is unconscionable and cruel to cut off people who cannot pay their electricity bill in this time.

When profits are made and high corporate salaries paid, when workers are able to work and get paid, can a thought not be spared for those whose job has disappeared? For parents and children trying to manage work and school from home or with the added stresses of covid.

when you cut off the electricity you cut off the schooling too.

HOW CAN SUCH A DECISION BE MADE?

Please - do not be part of cutting off electricity to the poor who cannot pay their bills in this very difficult time. People are not being "delinquent" on paying the bill, because they are lazy or careless. THEY ARE DESPERATE.

Our society will be judged by how it treats its weakest members. Do not disgrace yourselves and America by making harsh and cruel decisions.

thank you
