Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Add your personal story here.

I use Duke Energy at the above address. I think the Storm Protection Plan is far too expensive just to save a few days relief from being without power. I would support the electric companies investing in solar power especially here in Florida "the Sunshine State". We need to reduce our carbon footprint . This SPP proposal only helps the utility companies NOT the consumer. We have no choice but to use the utility company and we rely upon you to help keep the cost down. Thank you.

Sincerely

Tamsin Saphir
