Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I have lived in my home for over 20 years. Historically, my neighborhood loses power for an average of 3 days after any hurricane, long after the rest of the island has been restored. I never get any credit for the inconvenience and hardship. Please reconsider putting a surcharge onto the electric bills and instead consider improving response time included as part of your service that customers who deserve to expect.

Thank you.

Sincerely,

Mrs. Mary Anne Rybak
