**Subject:** DOCKET#20200219-EI

To whom it may concern,

Many people lost their jobs, have lowered hours, or have been economically impacted by COVID-19. It's unethical to assume those same people who are experiencing an astronomical increase in unemployment and may be struggling to put food on the table can make utility payments. Furthermore, due to Florida's heat, it raises concern for public health and ability to quarantine at home with no utilities. It will also impact the electricity providing internet access which is essential for applying for jobs, benefits, or finding resources. I'm greatly opposed to the utility shut offs during a pandemic and am asking you to consider humanity.
