Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I am in disagreement with this new proposal because of the projected dramatic rate increases that will accompany it long term. The plans is more geared towards utility profits and not storm protection.

As of now, Floridians are charged several fees and taxes that continually increases our monthly bills. The response time for utility workers for simple outages is not acceptable.

Sincerely,

Mrs. Angela Lambert-Mardy
