Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I live on Social Security Disability Income and my significant other lives on Social Security as well. We are both very concerned about the impact of the rushed regulatory proceedings on August 10 when PSC commissioners unanimously

approved the four utilities' Plans (Florida Power & Light/FPL, Duke Energy Florida, Tampa Electric Company, and Gulf Power Company) plans that will significantly increase utility costs for Floridians.

We do not think that the cost justifies this project that will help few customers achieve faster electricity restoration.

Please stop this work. We, Ferdinand Howard Sinclair, III and Kelly L. Griffin, do not support this project and were unaware of the public hearing that was held. We would have been there.

Thank you for considering our concerns. We can barely afford our electric bill now!

Regards,

Kelly Griffin and F. Howard Sinclair

Sincerely,

Ms. Kelly Griffin
