Subject: Protect our solar rights! Docket: 2020-0000

Dear Florida Public Service Commission,

The Solar industry in Florida has one of the greatest potentials of many states. Many of us have done the right thing and installed solar panels. The state enjoys cleaner air because of it. Many people have jobs because of the popularity of solar.

If the utility companies are allowed to do away with net metering solar system sales will plummet and many people will lose their jobs. Also, the loss of net metering will have a detrimental financial impact on homeowners who were responsible and invested several thousand dollars for solar systems.

The greed and monopoly style policies of the utility companies must stop.

Please defend solar workers, business owners, and residents by protecting our bedrock solar policies here in Florida.

Sincerely,
Cynthia Houk
