Mark,
I've added comments below in red to explain the deviations.
These were trued up with our timesheets when the month closed on the 31st, so these are the final numbers for the field hours. Any additional hours will be for the Sunderland support.
My final number is also 12,936.

Subject: RE: ENERCON Storm Response Time Logs

Greg,
There were a couple of changes from the originally approved time logs. Could you provide some detail on the changes?

10/17/18 – All of these folks deployed in the afternoon so only a partial day (5 hrs for GA people & 8 hrs for FL people). Original log overlooked their deployment day hours.

Katrina Bermudez was added with 8 hours
Will Campliglia was added with 5 hours
Roderick Jones was added with 8 hours
Michael Lee was added with 8 hours
Derek Lin was added with 8 hours
Robert Wall was added with 5 hours

10/19/18 – Kayla was released later in the day than our normal release time for others so her time log was revised to reflect the later release.

Kayla Gilkes was changed from 12 hours to 16 hours

10/25/18 – Katrina, Robert and Anthony did not have their release time reflected properly so the log was updated to reflect their release on this day.

Katrina Bermudez was changed from 16 to 12 hours

Robert Blew was changed from 16 to 12 hours

Anthony Cacciapuoti was changed from 16 to 12 hours

Bryan Phillips was changed from 12 to 16 hours – Bryan left the following day, so his time was updated to match his actual release day.

10/29/18

Kris Deuschle was changed from 12 to 14 hours – Kris was released later in the day than our normal release time for others so his time log was revised to reflect the later release.

All other hours seemed reasonable. With these changes I came up with a total of 12,936 hours approved for the time period 10/14/18 through 10/31/18. Does this match your records?

Subject: RE: ENERCON Storm Response Time Logs

Mark,
Attached is our final time logs for all of the field support. This provides all time for the full 3 weeks, so the time you saw on a daily basis as well as the last two days.
This only reflects time charged in the field, so the office support for Sunderland is not included in these logs.
If you have any questions please let me know.

Mark,

I was auditing the teams timesheets this morning and noticed one error in the time log I sent you for 10/17. That log had no time for McLean Miller on the 17th, but it should have shown 16hrs for McLean on the 17th.

Subject: ENERCON Storm Response Time Logs

Mark,
Attached is ENERCON's time logs for the first 10 days of storm response for your review and approval. Going forward I will plan to send these to you on a daily basis.
If you have any questions or comments on the time charges, please let me know.
