Tallahassee FL 32399-0850

Dear Sir:

Please do not increase rates for any reason as many are struggling to put food on the table. This is a bad idea in normal times as does not benefit the majority of power customers and a terrible idea now when times are so HARD for so many! Stop the Electric Utilities' Boondoggle (Docket 20200092-E1).

It is unfair for all customers to subsidize the tiny few who will benefit from these improvements. Despite the SPPs massive size, few customers will experience shorter storm-related outages. It is ridiculous to waste this kind of money to underground only 4 percent of FPL's residential customers and 5 percent of Duke Energy's customers.

Surely there are more practical and widespread options to improve service during storms. Time to rethink what would best assist the most customers!!

Thank you, John and Eloise King (LCEC home customers)
