Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

After the last price increase and supposeable rate cut, my FPL bill first were in the \$ 132.00 range plus or minus depending on the usage, but after March 2020 our FPL bill increased up to \$150 + where is our discount ??????. It seems very time that the electric utilities companies say they are giving the public a discount on our rates, within 6 months our rates start to increase.

During this pandemic you would think that the utilities would consider loss of wages and employment, schools closing, more employees working at home instead of business who have to shut down and use less electricity .

Many of us are fooled by FPL, Duke Power and other utilities companies.

Shame on you.....

Stockholders you get the same increase as we consumers do, but you also want your shares value to increase.

What a dilimena for all.....

Sincerely,

Mrs. Carol Lee
