C. STATEMENT OF BASIC POSITION

The utilities bear the burden of proof to justify the recovery of costs they request in this docket. The utilities must carry this burden regardless of whether or not the Interveners provide

evidence to the contrary. Further, the utilities bear the burden of proof to support their proposal(s) seeking the Commission's adoption of policy statements (whether new or changed) or other affirmative relief sought. Even if the Commission has previously approved a program, recovery of a cost, factor, or adjustment as meeting the Commission's *own* requirements, the utilities still bear the burden of demonstrating that the costs submitted for final recovery meet any statutory test(s) and are reasonable in amount and prudently incurred. Further, recovery of even prudently incurred costs is constrained by the Commission's obligation to set fair, just, and reasonable rates. Further, pursuant to Section 366.01, Florida Statutes, the provisions of Chapter 366 must be liberally construed to protect the public welfare.

D. STATEMENT OF FACTUAL ISSUES AND POSITIONS

GENERIC LEGAL ISSUE

GENERIC CONSERVATION COST RECOVERY ISSUES

ISSUE 1: What are the final conservation cost recovery adjustment true-up amounts for the period January 2019 through December 2019?

OPC: The OPC is not in agreement that the Companies have demonstrated that they have met their burden to demonstrate that costs are reasonable and prudent. A significant percentage of the costs on a customer's bill is based on clause recovery in this docket and others. The Commission has not held a contested proceeding where testimony from witnesses was heard and discussed in open hearing. The OPC does not accept that, given these circumstances, that the costs proposed for final true-up can necessarily be deemed prudent.

ISSUE 2: What are the appropriate conservation adjustment actual/estimated true-up amounts for the period January 2020 through December 2020?

A significant percentage of the costs on a customer's bill is based on clause recovery in this docket and others. The Commission has not held a contested proceeding where testimony from witnesses was heard and discussed in open hearing. The OPC does not accept that, given these circumstances, that the estimated/actual costs proposed for recovery can necessarily be deemed reasonable.
