Re: Utilities, Inc. of Florida proposed rate in creases

Docket No. 2020139-WS

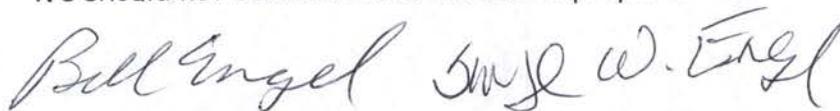

In the strongest terms we object to this proposal.

As Utilities, Inc., purchased other companies, they discovered that many were not in good condition and would require expensive improvements

At that time we were told that the water and sewer systems for our area (formerly Sanlando Utilities) were in good to excellent condition.

The last rate increase was supposedly done to spread these costs across Florida. Our average charges went up by 20 to 25%.

We should not be included in the latest proposed increase.
