Subject: Comments on Docket No. 20200051-GU

1. The current monthly rate for the distribution charge shown on the proposed rate change notification do not match my current rate on my People's Gas bill for service to my home in Orlando in rate class RS-2. The notification identifies the rate at \$0.25465 however my bill shows \$0.46066. It is unclear to me how the rate change affects me with respect to the distribution charge. I assume it would be a similar percentage increase?
2. It appears to me that I would experience a net increase of my average monthly bill by about 17%, this seems a little high, although my monthly bill averages under \$40 per month.

Regards,
Robert G. Butterfield
Orlando, FL

This is an average increase of 39.64%!! This is an exorbitant increase!

I hope this is significantly adjusted, especially at this time when so many citizens are hurting financially.
