Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

I agree that large companies including power suppliers and big box stores would not have their solar installations subsidized by their customers. They are in business for a profit and have funds to support their own solar installations. They too will enjoy an eventual savings, but not at the expense of their customers.

I?m a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy?s request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Melissa Buhler
