Good Morning, Judy Whittaker

We will be placing your comments below in consumer correspondence in Docket No. 20200176-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II
Florida Public Service Commission

Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

I just received a survey from Duke which asked my opinion on literature offering a whole house surge protector for a monthly fee. Secondly a fixed rate monthly electric service including a monthly management fee. Duke tied this into claims of an offset of energy from their solar field. No where did it say this offset would benefit me as a consumer. I was puzzled by Duke's lack of clarity regarding their use of their solar fields. Now I understand. What a scam on the consumer.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Judy Whittaker
