Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

If energy companies want to go green they should do so on their own dime, not on ours. We chose to do what's right for the planet Duke should too. They should not just get to pretend they have because their customers have made responsible choices.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Elizabeth Florez
