Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

I find this really disgusting-Duke Energy makes ALOT of money and while I respect their right to earn that money because they are doing a service by providing power for MANY myself included but to team up with Walmart and having customers like myself that relies on disability so I can live, and wanting us to pay what Walmart can surely afford without us! This is really something no one should have to do for a company that is so big they could probably pay our electric bills without it harming them but how many Duke customers will be harmed through a program like this? Please say NO to Walmart and Duke Energy and others with like ideas. Thankyou.

I?m a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy?s request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Susan O'Rourke
