Good Morning, Aida Sheets

We will be placing your comments below in consumer correspondence in Docket No. 20200176-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz  
Commission Deputy Clerk II  
Florida Public Service Commission

Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

Corporations should not be allowed to push their operating expenses off on consumers, especially consumers who are not even their customers. I do not shop at Walmart, and I do not want to pay for their solar installations. Furthermore, it is time that Duke Energy lived up to their name and truly became an "energy" company and not a fossil fuel company. How about they start producing and selling energy from solar and wind instead of fossil fuels.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Aida Sheets
