Subject: PSC Docket No. 20200176 - Say No to Duke CEC

Dear Adam Teitzman,

In the middle of a pandemic, with tens of thousands of Floridians unemployed, Duke Energy is seeking to force regular Floridians to finance another big corporate giveaway. That's ridiculous! It's time Florida looks out for Floridians; especially in such dark times instead of giving more money to large corporations that are making record profits.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Sandra Evans
