Re: Docket No. 20200139-WS

I was extremely surprised to see a request for a Rate Increase, in our Utilities, at this very difficult time. The entire nation is under a great deal of stress, to say the least, and the Utilities have the audacity to ask for a rate increase at this time. The economy is failing, people are losing their jobs, businesses are having to scale down their services or close up entirely.

We are on the verge of having a vaccine for the COVID-19, which certainly will take some time to administer to the people, so why at this time would anyone be asking for a rate increase to the citizens of these Counties.

I would ask, as I am sure many citizens are asking, that the increase is not granted at this time.

Thank you,

Richard D. Tager
