CUSTOMER COMMENTS

If you are planning to raise our water rates, then please have the decency to allow your customers to both save money and the environment by providing us with reclaimed water. This is something I have been asking for the past two years as reclaimed water was made available to me in my previous home just 0.8 miles away in the same community. There should be some give and take in this situation. You want to take more of my hard earned money and I want you to give me reclaimed water.
