Subject: RE: Docket 2020026-SU Environmental Utilities, LLC application to install sewers in Cape Haze, FL

I am writing to you to ask you to reject the application by Environmental Utilities, LLC (EU) to install sewers in the Cape Haze subdivision in Charlotte County.

EU is a start up company without the requisite experience to manage the projected sewer system construction and subsequent operation.

They have not demonstrated, to the affected areas, that they have the necessary financial wherewithal to build out this system and then manage it on an ongoing basis.

Further, they have no firm idea as to the cost of the system or the costs to the individual homeowners. No provision is being made to allow those residents who would be hurt financially to make payments over time. Nor is there any information available to us about any grants to defray the costs to us.

Cape Haze is in the Charlotte County Utilities (CCU) service area and as such if sewers are to be installed they should be done under the auspices of CCU.

However, we dispute the generalized findings in the 2017 Charlotte County Sewer study as to the need to remove our septic tanks and replace them with sewers.

Thank you for your assistance,

Andy Dodd

Dec. 30, 2020

protesting Docket 20200226-SU

Commission Clerk,
Office of the Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Blvd
Tallahassee, Florida 32399-0850

cc: MARTIN FRIEDMAN, ESQ Dean Mead

420 S. ORANGE AVE #72
ORLANDO, FLORIDA 32801

To whom it may concern:

We are writing in regard to Docket #^{20200226-SU}
Application For Certificate to provide wastewater
service in Charlotte County by Environmental
Utilities LLC.

We own property in Cape Haze - 420 Spaniards Rd
Placida, Florida, 33946.

We strongly object to this Application
by Environmental Utilities LLC. on the
grounds that besides it being unsolicited
and without homeowners permission,

(Cont)

2

there is low population density in this area and there are no environmental issues.

We have no unsafe levels of Phosphorus, nitrogen, or Fecal coliform bacteria.

In 2013 Charlotte County Utilities did a survey regarding this and with 86% of residents responding-85% gave a Firm NO.

We also do not want or need our streets, lawns or stately trees torn up for this construction.

And lastly we object to the cost of approximately \$19,000.00 per residence to pay for this.

It is unreasonable to extort this amount of money from people during a pandemic with NO "Pay Overtime" terms to be made.

(Cont)

3

In Closing, we are firmly against
Docket NO. 20200226-SU, Application
For Certificate to provide wastewater
Service in Charlotte County by Environmental
Utilities, LLC.

Thank you for your time,

Sincerely

Matthew and Jill Benicewicz
