Subject: Docket#20200226-SU

To Whom It May Concern:

As President of the Pointe Bocilla Property Owners Association (PBPOA) located on Don Pedro Island, I am registering our objections to Environmental Utilities, LLC (EU) application to provide central sewer in the service area requested, as well as the waiver of Rule 25-30.033(1)(p) and (q).

- 1) Inadequate notice of intention for application was not given in a timely manner.
- 2) Applicant's financial strength and management expertise is woefully inadequate.
- 3) No information is provided to stakeholders with regard to start-up costs, connection fees, rates, or type of system intended.

Therefore, we strongly urge the PSC to deny the requested waiver of established protocols, as well as the Certification of the Service Area application.

Thank you for your consideration,

Karen D. Gordon, President
