SUBJECT: Docket #20200226-SU

Objection

We have had a positive experience with the water utility on LGI run by Jack Boyer. The primary challenge is the high cost of water (one of the highest in Florida). We object to this application on the basis of cost info not being included. How can it proceed without this? This should be a critical part of the application process.

We object to the application to bifurcate and waiver in this matter. We object to an application to keep the costs and proposed expenses secret. We object to the granting of a temporary waiver of Rule 25-30.033(1)(p) and (q). The applicant's request for a waiver should be denied by the Commission sua sponte.

We therefore respectfully request that such a "limited liability" two person corporation's request for bifurcation and a temporary waiver be denied.
Thank you for your consideration.

Sincerely,
