Subject: Docket #20200139-WS

I would like to comment on the proposed water rate hike by Utilities Inc, of Florida.

With all the repercussions of this year's Covid19 pandemic, I feel it would be a burden on the customers who have lost their jobs, have lost loved ones and those who have had to close their businesses.

There must be a way to hold off on an increase due to the hardships we have been through this past year. I see no reason to continue to raise rates at this time.

Please consider all those who are at risk of losing their homes and businesses just for the sake of a few more dollars.

Thank you for your consideration.
