Subject: Docket # 20200226-su

To whom it may concern,

I'm writing to you as a property owner on Little Gasparilla Island which is within the service area contained on the application from Environmental Utilities LLC (EU) for central sewer. I object to EU's request for the bifurcation of the certificate and rate making proceedings and I object to the granting of a temporary waiver of rule [25-30.033\(1\)\(p\)\(q.\)](#) Given the inadequate information regarding the applicants financial strength and management experience as well as the cost to the stake holders involved with this project, the applicants request for a waiver should be denied.

The stake holder in the proposed service area it is important to have all of the relevant information regarding the proposed central sewer, including the proposed rates, connection fees and the type of system intended for installation. I therefore request that EU request for bifurcation and the temporary waiver be denied.

Yours truly
