Subject: RE: Docket #20200226-SU - Application from Environmental Utilities, LLC [EU] for central sewer

Good Afternoon, Mr. Schaffer.

We will be placing your comments below in consumer correspondence in Docket No. 20200226, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Docket #20200226-SU - Application from Environmental Utilities, LLC [EU] for central sewer

To Whom It May Concern:

I am writing to you as a property owner on Don Pedro Island, which is within the service area contained in the application from Environmental Utilities, LLC [EU] for central sewer.

As stakeholders and potential rate payers in the proposed service area, it is imperative for interested parties to have the opportunity review all relevant information regarding the proposed central sewer system, including the proposed rates, connection fees, type of system intended for installation, maintenance infrastructure, environmental impact, etc. etc.

Unfortunately, given the inadequate information regarding (1) the applicant's financial strength (2) the applicants management / operational / and development experience (3) the ongoing costs / rates to homeowners that will be impacted by this project, it is not possible to make an informed and fact based decision as to the viability of the proposed utility.

In addition, it should be of concern to all interested parties, including County and State oversight agencies, that EU would attempt to circumvent any component of Rule 25-30.033 "Application for Original Certificate of Authorization and Initial Rates and Charges".

In summation, I object to EU's request for bifurcation of the certificate and rate-making proceedings as well as EU's request for a temporary waiver of Rule 25-30.033(1)(p) and (q).

Respectfully yours,

Peter Schaffer
