Subject: DOCKET # 20200226-SU

To whom it may concern:

We are writing to you as property owners on Don Pedro/Knight Island, which is the service area contained in the application from Environmental Utilities (EU) for central sewer. We object to EU's request for bifurcation of the certificate and rate-making proceedings. We object to granting of a temporary waiver of Rule 25-30.033 (1) (p) and (q). Given the inadequate information regarding the applicant's financial strength, management experience and considering the costs to the stakeholders involved with this project, we feel the applicant's waiver should be denied. As stakeholders in the proposed sewer, it is important to have all the relevant info regarding the proposed sewer system, including proposed rates, connection fees and type of system intended to be placed. We request that EU's request for bifurcation and a temporary waiver be denied.

Thank you for your consideration in this important matter.
