**Subject:** Docket # 20200226-SU

To Whom it May Concern,

I am writing to you as a property owner on Little Gasparilla Island, which is within the service area contained in the application from Environmental Utilities, LLC ( EU) for central sewer.

I object to EU,s request for the bifurcation of the certificate and rate making proceedings and I object to the granting of the temporary waiver of RULE 25 - 30.033(1)(p) and (q).  
Given the inadequate information regarding the applications financial strength and management experience as well as the cost to the stakeholders involved with this project, the applicants request for a waiver should be denied.

***As a stakeholder in the proposed service area, it is important to have ALL of the relevant information regarding the proposed central sewer, including the proposed rates, connection fees and the type of system intended for installation. I therefore request that EU's request for bifurcation and a temporary waiver be denied.***

Thank you,  
Dave & Kathy Ferri
