The following is a text I received from Julio this morning:

Hey Julio... Happy new year! 🍷 just wanted to touch base to see if you are in the loop for the sewer system proposal... There is one timely matter that needs to be addressed by Monday at noon... I will send you details if you are not aware
Happy new year🍷
Ok
It might be easier to send it in an email rather than text... Email address?
In a nutshell... Environmental Utility... a private company... has Applied for a temporary waiver... allowing for the NON-DISCLOSURE to property owners, of costs and rates for proposed sewer system ... SERIOUSLY!
I will copy and paste a proposed letter... Standby... Must be sent by Monday at noon
They are always up to no good.
To Whom it May Concern,

I am a homeowner on Little Gasparilla Island, which is in the service area contained in the application Environmental Utilities , LLU [EU] for central sewer.

I vehemently object to the EU's request for the bifurcation of the certificate and rate-making proceedings. I also vehemently object to the temporary waiver of Rule 25-30.033 (1) (p) and (q). Given the inadequate information regarding the applicant's financial strength and management experience as well as the expense to the stake holders involved with this project, the applicants request for such waiver must be denied.

As a stakeholder in the proposed serviced area, it is of the utmost importance to have ALL the relevant information regarding the proposed central sewer, including the proposed rates, connection fees and the type of system intended for installation. I, therefor request that EU's request for bifurcation and a temporary waiver be denied.

Docket # 20200226-SU

Send to: clerk@psc.state.fl.us

Funny how they do this during the holidays

Great

I will spread the word

Yes trying to fly under the radar... Everyone must send an email... You can use my email just change the name Also by January 17 an email must be sent stating your objections to a central sewer installation ... I'll send you that information to

... Basically the water guy wants the sewer business too ...
