Subject: Docket #20200226-SU

To Whom It May Concern;

We're property owners on Don Pedro Island, which is within the service area contained in the application from Environmental Utilities, LLC (EU), for central sewer. I object to EU's request regarding the certificate and rate making proceedings and to the granting of a temporary waiver of Rule 25-30.033(1)(p) and (q). There is inadequate information regarding the applicant's financial strength and management experience, as well as the costs involved with this project. Therefore, The request for the waiver should be denied. As owners of property in this service area, I feel it's critical to have all the relevant information regarding the proposed central sewer, including the proposed rates, connection fees, and type of system intended. I therefore request that EU's request for bifurcation and a temporary waiver be denied.

Thank you for your kind consideration.

Sally N Kimbrell and William Lee Kimbrell Owners of Colony Don Pedro Unit 27
301 S Gulf Blvd, Don Pedro Island.
