Subject: Docket#20200226-SU

To Whom It May Concern:

I am writing because I am a property owner on Palm Island (540 S Gulf Blvd - The Preserve Don Pedro) which is situated within the service area contained in the application from Environmental Utilities, LLC [EU] for central sewer. I object to EU's request for the bifurcation of the certificate and rate-making proceedings and I object to the granting of a temporary waiver of Rule 25-30.033(1) (p) and (q). I feel strongly that the inadequate information regarding the applicant's financial strength and management experience as well as the costs to the stakeholders involved with this project should disqualify the applicant's request for a waiver. As a stakeholder in the proposed service area, I have a vested interest in knowing all of the relevant information regarding the proposed central sewer including the proposed rates, connection fees and the type of system intended. I request that EU's request for bifurcation and a temporary waiver be denied.

Sincerely,
Cheryl Klaus
