**Subject:** RE: William D. Stafford 8748 Marsh St. Little Gasparilla Island

To Whom it May Concern,

I am a homeowner on Little Gasparilla Island, which is in the service area contained in the application Environmental Utilities , LLU [EU] for central sewer.

I vehemently object to the EU's request for the bifurcation of the certificate and rate-making proceedings. I also vehemently object to the temporary waiver of Rule 25-30.033 (1) (p) and (q). Given the inadequate information regarding the applicant's financial strength and management experience as well as the expense to the stake holders involved with this project, the applicants request for such waiver must be denied.

As a stakeholder in the proposed serviced area, it is of the utmost importance to have ALL the relevant information regarding the proposed central sewer, including the proposed rates, connection fees and the type of system intended for installation. I, therefor request that EU's request for bifurcation and a temporary waiver be denied.
