Subject: Docket No. 20200181; Modernize Florida's outdated efficiency practices

Dear Florida Public Service Commission,

I no longer live in this state, 5 years resident of another state in which I plan on staying until death, had I known, I'm supportive of solar, using green energy, one day become independent of fossil fuels along with companies who use them. To read THE CHAINY name, wasted time, \$\$, and gives me anxiety, heartburn, etc., Haliburton was handed government contracts via a Chainy VP, making millions and continues today. Solar/green energy, personal supporter of a company she earns from. Let me guess, Haliburton has solar products for sale? Why, if there is no "changing environmental climate change" push your products for personal gain, unless someone believes in people have killed & continue finish off the planet Earth?
I've chosen to NOT waste my time reading about any of the CHANEY clan, now do your part.

Sincerely,
debra baron
