**To:** Records Clerk <CLERK@PSC.STATE.FL.US>  
**Cc:** mfriedman@deanmead.com  
**Subject:** PSC Docket # 20200226 Denial of the Certificate to Environmental Utilities LLC

To whom it may concern:

As an interested party, property owner on Little Gasparilla Island. Please see the attached letter of objections to awarding the Certificate to operate sewage facilities to Environmental Utilities, LLC. They are requesting to provide sewage disposal for Cape Haze, Little Gasparilla Island, Palm Island and Don Pedro Island in Charlotte County, Florida. Your support in denying this certificate would be appreciated.

Thank you for your consideration.

Sincerely,

Craig Grant  
9476 Alberado Road  
Little Gasparilla Island  
Placida, FL 33946

This letter is response to docket number 220200226. I understand it, environmental utility is to carry out the installation of the infrastructure - lay the pipe throughout the island great initial expense and ongoing expense to the island. I object to the installation for many reasons. There have been many failures over the last decade creating environmental disasters for the waterways of Florida not to mention contributions to the algae blooms we all know and love. I maintain, that a correctly installed and maintained septic system is the best alternative for our Island given the current status of failing Wastewater systems in the state of Florida. I also object to a privately owned business mandating hookup at our expense, which will cause a great burden to homeowners on the island and to ourselves, creating a burden to our rental income which we use to live on the island.

Craig Grant
