Subject: Little Gasparilla Island

I am writing in support of Little Gasparilla Island utility to provide wastewater services to the Island. We have homes that have sewage being emptied directly into the gulf and bay. Environmentally it will be good for the Island. Also, we have to barge over our septic trucks and we are at the mercy of the barge. We have bigger homes going up and if you look at the VRBO, we have a ton of rental homes. When we get a hard rain that floods the Island, all you smell is sewage. Please consider allowing us to a safer environment on our Island.

Sincerely,
Karyn and Arthur Flatau
