Re: Docket No, 20190168-WS; First Coast Regional Utilities, Inc.; Provision of Water and Wastewater Utility Services to a Portion of Baker County, Florida

Dear Chairman Clark,

This letter is written in support of the application of First Coast Regional Utilities, Inc. ("FCRU") now pending before the Florida Public Service Commission. We believe that the provision of water and wastewater utility services is essential to the orderly and quality growth of the eastern portion of Baker County and thus endorse the development of the FCRU utility facilities within the area as shown on the attached map included in its application. Further, we understand that FCRU has the option of constructing its potable water and water reclamation facilities in Baker County and would strongly encourage FCRU to do so if that is the best location for these facilities. This would ensure the possibility of extending the service area over time, as warranted.

Should you have any questions or comments concerning the above, please do not hesitate to contact me.

Sincerely,

Baker County Board of Commissioners

Oliver J. Anderson, Chairman
